Red-D-Arc Welderentals™ offers a full range of welding tools and equipment for rent and lease. We are North America's largest supplier of welding related rental products. Gas metal arc welding (GMAW), sometimes referred to by its subtypes metal inert gas (MIG) welding or metal active gas (MAG) welding, is a welding process in which an electric arc forms between a consumable MIG wire electrode and the workpiece metal(s), which heats the workpiece metal(s), causing them to melt and join. Along with the wire electrode, a shielding gas feeds through the welding gun ... Welding Automation Welding Automation, Welding Automation Systems, Automatic Carriages Featuring Gullco KAT Systems. Gullco International offers you the finest welding carriages for cutting and welding automation, featuring our popular KAT systems. Travel carriages, gouging machines, welding and cutting operations you are guaranteed to find what you need from the trusted leader in welding ... Arc welding is one of several fusion processes for joining metals. By applying intense heat, metal at the joint between two parts is melted and caused to intermix - directly, or more commonly, with an intermediate molten filler metal. - Arc Welding Automation
