Bermuda (Somers's Isles), near the Gulf Stream in the northwest Atlantic, with about 50 inches of rain annually. NOT in the Caribbean but 900 miles north of it. Bermuda is a nominal British territory - nominal because despite being British it is self-governing internally, makes all its own laws and does not use any from the United Kingdom. 2019 April 19. Good Friday Public Holiday through Easter Sunday. Different Bermuda kites. For most Bermudians, Good Friday traditions mean church, flying Bermuda made kites, and eating codfish cakes - see below - and English style hot cross buns - also shown below. Flying kites - although not on Good Friday - originated in Indonesia 3,000 years ago. Bermuda never looks crowded. There are no billboards or neon signs, and relatively few cars to spoil the wonderful countryside. The houses with gabled limestone roofs and pastel colors fit beautifully into the landscape.
