

Download Hi-fi Stereo Handbook,

High fidelity (often shortened to hi-fi or hifi) is a term used by listeners, audiophiles and home audio enthusiasts to refer to high-quality reproduction of sound. This is in contrast to the lower quality sound produced by inexpensive audio equipment, or the inferior quality of sound reproduction that can be heard in recordings made until the late 1940s. Termination Networks for DNM Cables High Frequency Termination Network (HFTN) for DNM interconnect cable The DNM High Frequency Termination Network (HFTN) for DNM interconnect cable is a new cable-related product (the micro-PCBs in the photo above) that significantly reduces ultra-high frequency reflection in audio cables.
