Publications and Replication Files. For selected articles, the replication material (.zip files) can be downloaded by clicking on the link following these articles. A time series is a series of data points indexed (or listed or graphed) in time order. Most commonly, a time series is a sequence taken at successive equally spaced points in time. Thus it is a sequence of discrete-time data. Examples of time series are heights of ocean tides, counts of sunspots, and the daily closing value of the Dow Jones Industrial Average. Bekijk alle studiedocumenten. Samenvattingen, oude tentamens, college aantekeningen en meer om je te helpen sneller te studeren!
