South Jersey Innovation Center At-A-Glance. At the South Jersey Innovation Center, we help children develop life skills, critical thinking and creativity through well-designed STEAM programs and activities for students of all levels starting at 6 years old. Out of the 120,000 or so steam locomotives built and used in the United States, only about 220 were streamlined—or, as the Chicago & North Western called it, steamlined—for passenger service. Railroads went to the trouble to streamline steam locomotives for three reasons. Thank you to all who attended the 2019 S.T.E.A.M. Women's Empowerment Conference and helped make it a success! Mission Statement: This very important conference serves as an impactful and motivational forum where individuals will be inspired to take personal responsibility in owning and embracing their story and identity. A train ferry is a ship designed to carry railway vehicles. Typically, one level of the ship is fitted with railway tracks, and the vessel has a door at the front and/or rear to give access to the wharves. In the United States, train ferries are sometimes referred to as "car ferries", as distinguished from "auto ferries" used to transport automobiles. - Jersey Central Steam In Color
