

Download Many Kinds Of Animals

No one knows how many kinds of organisms -- how many species -- there are on Earth. Elsewhere we explain about "lumpers and splitters," where some experts lump bunches of different-looking populations of organisms into one species, while other experts describe each distinct population as a species all by itself. That's one reason why it's hard to know the Earth's total number of species. Hundreds of fun educational games and activities for kids to play online. Topics include math, geography, animals, and more. Stress can be caused by sudden physical danger. In evolution, animals developed elaborate mechanisms for rapidly identifying danger and responding with fight or flight responses. When studying humans, it became apparent that the same responses can occur with psychological, interpersonal and work ... Many issues confront neuroscientists in their attempts to map the brain. A previous post, the Limits of Neuroscience, listed critical problems. Connections are made and pruned each day and one neuron can have 100,000 connections. There are many types of synapses, many types of neuroplasticity in wide networks, and many different types of postsynaptic densities (the complex structure in the post ... - Many Kinds Of Animals
