

# Download Smart Manual Wood Splitter

No axe needed. LOGOSOL's smart log splitter is an easier and ergonomic way to do get the job done with logs and kindling. Wood gets split by raising and lowering the striking weight instead of swinging an axe, so there's less strain on your back. The weight delivers up to 30,000 pounds of force ...You are eligible for a full refund if no ShippingPass-eligible orders have been placed. You cannot receive a refund if you have placed a ShippingPass-eligible order. In this case, the Customer Care team will remove your account from auto-renewal to ensure you are not charged for an additional year and you can continue to use the subscription until the end of your subscription term. If you're in the market to upgrade your manual log splitting process to something far easier and less time consuming, a hydraulic log splitter could be the best option for you. This 6-Ton Electric Log Splitter quickly turns that pile of wood into something useful – firewood for your fireplace. Safer and more productive than swinging an ax, the log splitter's 6-Ton of RAM force can split logs up to 21in. long and 10 in. in diameter. - Smart Manual Wood Splitter
