Study Guide

In social psychology, social loafing is the phenomenon of a person exerting less effort to achieve a goal when he or she works in a group than when working alone. This is seen as one of the main reasons groups are sometimes less productive than the combined performance of their members working as individuals, but should be distinguished from the accidental coordination problems that groups ...Higher Education Products & Services. We're constantly creating and innovating more effective and affordable ways to learn. Explore our products and services, and discover how you can make learning possible for all students. In social psychology, a stereotype is an over-generalized belief about a particular category of people. Stereotypes are generalized because one assumes that the stereotype is true for each individual person in the category. While such generalizations may be useful when making quick decisions, they may be erroneous when applied to particular individuals. Top 10% Absolutely Positively the Best 30 Death Penalty Websites on the Internet (Top 1%) Death Penalty Information Center Probably the single most comprehensive and authoritative internet resource on the death penalty, including hundreds of anti-death penalty articles, essays, and quotes on issues of deterrence, cost, execution of the innocent, racism, public opinion, women, juveniles ... - Social Psychology 8th Edition Kassir Study Guide
