The core problem with US space policy, she emphasizes, is America's unrelenting militarization and weaponization of space. "While the rest of the world seeks to increase its ability to use space assets for information linkages required for economic growth in a globalized world, the United State sees much of the technology they are seeking as militarily sensitive and, consequently, is ...Space as a Strategic Asset Book Description: Joan Johnson-Freese argues that the race for space weapons and the U.S. quest for exclusive or at least dominant ownership of strategic space assets have alienated the very allies that the United States needs in order to maintain its leading role in space exploration.
